

EDWIN GNANA RAJ B

Full-Stack Developer

Chennai | +91 93858 15580 | edwingnanarajb@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

CAREER SUMMARY:

Passionate Full-Stack Developer with hands-on experience in building responsive and scalable web applications using React.js, HTML, CSS, and JavaScript. Strong in designing user-centric interfaces and optimizing performance. Proven ability to develop real-world projects with clean architecture and efficient functionality.

WORK EXPERIENCE:

VENBA TECH

Development Executive | 06 October, 2025 – Present

- Improved customer satisfaction by providing effective technical support and solutions
- Created and maintained structured documentation for software systems
- Assisted in bug tracking, feature enhancement, and performance improvements
- Collaborated with cross-functional teams to deliver website updates and new features

TATA CROMA

Customer Service Specialist | 02 January, 2025 – 05 September, 2025

- Assisted customers with technical troubleshooting for devices and online services
- Managed customer interactions through multiple channels (in-store / calls / systems)
- Maintained accurate records of customer issues and resolutions
- Collaborated with internal teams to resolve escalations efficiently

RELEVANT PROJECTS:

Biotique Cloning (React JS E-Commerce UI) Tech Stack: React JS, CSS, JavaScript

- Developed a Biotique-inspired e-commerce web application using React JS
- Built dynamic product listing with reusable components
- Implemented search and filtering functionality for products
- Designed responsive UI matching real-world brand layout
- Focused on performance optimization and clean UI/UX

Expense Tracker (React JS) Tech Stack: React JS, JavaScript, SQL

- Built an interactive expense tracking application to manage daily spending
- Implemented add, delete, and track transactions dynamically
- Used state management for real-time updates
- Designed clean and minimal UI for better usability

Task Manager (MERN Stack) Tech Stack: React JS, MongoDB, Render, JWT

- Built a full-stack task management application to organize daily tasks efficiently
- Implemented add, delete, update, and track task status dynamically
- Integrated secure authentication using JWT for user login and access control
- Designed a responsive and modern UI with real-time updates for better user experience

EDUCATION:

B.Sc Computer Science

Bharathiyar University (2021 – 2024)

SKILLS:

- Frontend: React JS, Redux.js HTML, CSS, JavaScript
- Backend: Java, Postman, Node.js, SQL, MongoDB, AWS
- Concepts: Responsive Design, Component Architecture
- Tools: Git, GitHub, VS Code, Netlify, Vercel
- Others: Debugging, Performance Optimization
